SUBJECT:

Report on the Status of the U.S.S.R. Atomic Energy Program, 1 January 1950

- 1. Attached hereto is a copy of two reports on the Status of the U.S.S.R. Atomic Energy Program which have been prepared by the Joint Atomic Energy Intelligence Committee. The first report (Appendix "A") which contains "Bestricted Data" under the Atomic Energy Act of 1946 has been prepared primarily for the use of the Joint Chiefe of Staff, the Military Liaison Committee to the Atomic Energy Commission, and the members of the I.A.C. This report has been agreed upon by the individual members of the Joint Atomic Energy Intelligence Committee. An abbreviated report (Appendix "B") from which the "Restricted Data" and some of the more specific intelligence information has been deleted has also been prepared for somewhat wider use than the report which contains "Restricted Data". It is intended that both reports should receive very limited distribution.
- 2. These reports are submitted for your approval as a member of the I.A.G. A voting clip is enclosed. It is requested that your approval of this report be expedited.
